

RX7

The newly designed RX 7 recumbent offers all of the features of a high end stationary bike with the added bonus of an adjustable high back comfort seat to reduce strain on the spine. The design of the control panel with handlebar and low step through design allow for an ergonomically beneficial posture and safe and easy mounting and dismounting. The redesigned SIEMENS® electronics are celebrated for their easy menu guidance, high resolution display and easy legibility. The RX 7 efficiently and easily fuses all of the benefits of a traditional stationary bike with the relaxed ergonomics of a recumbent.

- 48 programmable training computer with recovery feature include programs ranging from pulse-directed training to pre-set pulse range for fat burning and fitness zones
- SIEMENS® electronic VGA and LCD display with blue backlight and graphic load profile
